Food service and convenience

UK Product Guide

The future of food packaging

Go-Pak is an award-winning manufacturer and supplier providing packaging solutions to the food service, cash & carry and retail sectors globally.

We offer a variety of hot and cold food and drink packaging and accessories as well as high quality, custom print to bring your branding to life. All perfectly matched to your requirements.

We constantly evolve to provide best-in-class solutions with outstanding customer focus and quality.

We integrate sustainability features and benefits as we design, manufacture and deliver food service packaging.

Sustainable | Adaptable | Agile | Reliable

We've got your food service packaging needs covered

Contents

6 – 31

Paper cups, lids and accessories

Single, double and ripple wall cups, lids, clutches, carry trays and stirrers.

32 – 67

Food packaging and accessories

Moulded fibre, takeaway packaging, soup pots, deli bowls, plates, cutlery and more.

68 – 85

Cold cups, lids and accessories

Tumblers, cold cups, lids, shot glasses and straws.

Sustainability that's powered by return journeys

We've designed Go-Recycle as a smarter way to close the loop, turning our **existing delivery network into a recycling solution** that makes sustainability simple - no extra journeys, no added cost.

Simply send us an email and our team will guide you through the process

Confetti

by go-pak

Double Wall Hot Cups
Mixed sleeve of five colours

**NEW
PRODUCT**

Harnessing colour to capture attention and elevate everyday food and drinks experiences.

Much like social media content, packaging needs to grab attention within seconds.

The Confetti Hot Cups help customers to notice your product, photograph it, and share it on social media - adding a boost to a business's online profile.

explore the range
of Aqueous Cups

What is an Aqueous coating?

Aqueous coating is a water-based solution applied to paper products to enhance durability, minimise leakage, and significantly reduce plastic usage. This coating method contains less polymer than traditional plastic linings and is home compostable.

A close-up photograph of a person's hand holding a small, rectangular piece of light brown kraft paper. The hand is positioned on the right side of the frame, with the thumb and index finger gripping the paper. The background is a solid, deep blue surface. In the foreground, there is a blurred, colorful pattern, possibly a piece of fabric or a bag, with shades of red, blue, and white. The lighting is soft and even, highlighting the texture of the kraft paper and the skin of the hand.

Understanding the materials we use

When it comes to recycling packaging materials, it's important to know the different types and **how to properly recycle them**. This quick look guide below will help you make informed choices towards packaging materials.

rPET

Made with recycled polymer with excellent transparency; **recyclable**

PE

Versatile polymer with excellent barrier lining properties for paper; **recyclable***

PLA

Bio-based plastic made from renewable resources used as lining for paper; **industrially compostable***

Moulded Fibre

Made from eucalyptus or sugarcane and **industrially compostable***

Wood

Certified; sourced from sustainably managed forests; **recyclable**

Paper board

Food-grade material sourced from sustainably managed forests; **recyclable**

Size	Capacity
4oz	120ml
6oz	180ml
8oz	240ml
12oz Squat	300ml
12oz	360ml
16oz	480ml
20oz	600ml
